

Eagle Lake - Legal Lake Level Petition and Information

In an effort to regain control of the long-term lake level of Eagle Lake while maintaining property values and reducing the future costs of devastating flooding, the Eagle Lake Texas Association strongly supports the establishment of a Legal Lake Level.

Official Petition Language is as follows:

EAGLE LAKE PETITION TO THE COUNTY BOARD OF COMMISSIONERS

KALAMAZOO COUNTY, MICHIGAN

The undersigned property owners of lands abutting Eagle Lake located in Texas Charter Township, Kalamazoo County, Michigan respectfully submit unto this Board this petition as follows:

The seasonable variations of inflow and precipitation, combined with a lack of suitable control over outflow, causes the water level of Eagle Lake to rise to a degree which is harmful to our interests.

The maintenance of a stable, normal, lake level is necessary on Eagle Lake to protect the public health, welfare, and safety; to preserve the natural resources of the State of Michigan; and to protect property values around Eagle Lake.

Therefore, we petition the Kalamazoo County Board of Commissioners to take the following action as provided by Part 307, Inland Lake Levels, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. MCL 324.30702(1).

To cause to be determined and established a Legal Lake Level for Eagle Lake, at an established lake level.
